Parents, teachers, and kids love *Times Tables and Addition the Fun Way*.

"The times tables program was the best thing for my daughter. She went from frustrated to successful in a month. Her teacher called and asked what program she was using because the impact was so profound." Dana Rickers, Grandville, MI

"I love your product. It is brilliant. I thank you on behalf of all struggling learners for what you do. I always refer your product to parents as I am a special educator." Carol Chirco, Smithtown, NY

"I can't describe my anguish of mathematics in school, I cried at night and was in remedial math classes my entire life. I remember the day as clear as yesterday when my 3rd grade teacher taught us multiplication (an impossible task in my eyes) with your book. It was like a miracle, when my language-oriented and creative mind read the stories of the times tables personified, suddenly lightning struck, and I understood everything. I am 22 yrs. old now and still remember the stories." Lee Decker, New York, NY.

## BEST SELLERS FROM CITY CREEK PRESS

Our math programs are based on pictures and stories and stick like glue. Most mathematical operations after first grade use the times tables and addition facts to solve problems. Struggling students are finally able to do division, ratios, algebra and beyond, since our materials provide the foundation to create a love for math and success in class.

### BOOK FOR KIDS: TIMES OR ADDITION \$19.95

Pictures and stories make learning fun, engaging, and effective. *Times Tables the Fun Way Book for Kids*, an Academic's Choice Winner, has sold over 100,000 copies. *Addition the Fun Way Book for Kids* uses the same visual technique to help kids memorize the addition facts eliminating the need for counting on fingers. Math becomes fun when kids have the basics firmly memorized, a huge boon for math success.

Learn all the times tables 0s-9s with story cartoons.
